

Tauseef Khan

Senior Product Designer | UX Strategy, AI Experiences & Design Systems

New Delhi, India | [+91 8586047187](tel:+918586047187) | tauseefkhan095@gmail.com

[Portfolio Website](#) | [LinkedIn](#) | [Dribbble](#) | [Behance](#)

Senior Product Designer with **7+ years** of experience designing **45+ products** across healthtech, AI/SaaS, fintech and mobility. Owns end-to-end design from research and UX strategy to prototyping, validation and developer handoff. Combines conversational AI, scalable design systems and product analytics to improve complex web and mobile experiences; previously built and led a team of **8 designers**.

PROFESSIONAL EXPERIENCE

ZoomRx Healthcare Technologies | Remote, India

Senior Product Designer

Nov 2022 - Present

- Architected and built an agentic AI workflow that automates multi-screen generation via a generator-evaluator loop, using Figma screen datasets and reusable skills grounded in my own design-system skill.
- Established a UX measurement program for the [Panelist Survey App](#), linking detractor feedback to design sprints and contributing to a **44-point Net Promoter Score (NPS) increase, from -8 to +36, in 12 months**.
- Owned [Sagan.AI](#)'s voice-first survey UX for healthcare professionals (HCPs), leading research, information architecture, Figma prototyping and user acceptance testing (UAT); increased submission rates and participation by **~30% versus text-based formats**.
- Redesigned onboarding using Jobs-to-be-Done and Amplitude funnel/cohort analysis, growing **monthly active users from ~400 to ~550 (+38%)** and improving **90-day retention by ~19%**.
- Architected a design system in Figma (**200+ components**, design tokens, **WCAG 2.1 AA**) for **1,000+ surveys** across web and mobile, then packaged it as Claude and Codex skills and plugins for agentic AI coding.
- Led moderated HCP interviews and task-based usability testing, translating **6 key UX insights** into roadmap priorities. Launched End of Survey Feedback (EOSF), collecting **30,000+ structured responses**.
- Redesigned the Patient Load survey using progressive disclosure and mobile-first question flows, increasing **completion rates by 24%**.
- Led UX strategy, information architecture and interaction design for [Ferma.AI](#), a life-sciences LLM platform, including competitive UX benchmarking against ChatGPT and Perplexity.
- Designed and built Zena, a conversational support bot, mapping its flows through whiteboarding to reduce tickets and improve first-contact resolution.
- Defined [Curie.md](#)'s personalized content architecture and mobile-first learning journeys through HCP research.
- Established DesignOps guidelines, developer-handoff procedures and sprint templates in Confluence and Notion to support asynchronous, cross-functional collaboration.

Additional projects: [Ferma Congress](#) | [Media Tracking](#)

Appventurez Mobitech | Noida, India

Lead Designer

Aug 2020 - Nov 2022

- Built and led **8 UX/product designers** across **13+ concurrent client projects**, establishing design critiques, review cadences and individual growth plans.
- Owned discovery, stakeholder alignment, Figma prototyping and Zeplin handoff; partnered with Bentley Motors' product team on the [Bentley Mulliner](#) visualiser.
- Led design for [Gribb Tech](#) fleet-management dashboard and driver app, translating vehicle telemetry into role-specific experiences. Designed configurable scoring, driver appeals, manager reviews and shift workflows with a junior designer, engineers and the client's CTO.
- Designed role-based commerce and inventory workflows for [Holcim Click-it](#), and customer, restaurant and driver journeys for [ASAPP](#), including in-seat delivery.

- Led UX strategy for RFP response decks, presenting design rationale to procurement stakeholders and helping secure **3 government contracts**.

Additional projects: [Gribb Tech](#) | [Amaze Mobility](#) | [EFL Click](#) | [Raftaarr](#) | [Clear.bio](#) | [AAFT](#) | [EatchMe](#) | [MyParkings](#)

FOCI Strategies / Appincubator | Noida, India

UI/UX Designer

Apr 2019 - Jul 2020

- Owned the design lifecycle across **12+ digital products**, using discovery workshops, user interviews, competitive analysis and card sorting to create prototypes and developer-ready specifications.
- Redesigned [Appstudio](#) and [Zazz.io](#) using heuristic evaluations and Google Analytics audits, improving information architecture and visual hierarchy while reducing bounce rates.
- Designed multi-persona journeys and a Figma component library for [Alpha Match](#); mapped accessible seller, bidder and buyer flows for [MaxSold](#)'s mobile auction app.

Additional projects: [That'sGame](#) | [Mindset](#) | [Tax-Volt](#) | [Ideal Protein](#) | [AstroBaba](#) | [GrinHits](#) | [KoshCrypto](#)

Cetana | New Delhi, India

Freelance UI/UX Designer

Feb 2018 - Nov 2018

- [Centricity Research](#): Revamping the brand identity and website UX to strengthen its positioning with pharmaceutical partners, improve the patient experience, and support engagement and retention.
- [World Class Health](#): Created the brand identity, client microsite, patient-journey app, and marketing and funding-pitch materials for a US healthcare startup.
- Safura AI: Worked on product ideation for a personal AI assistant intended to answer phone calls on the user's behalf, exploring delegated call handling as its core use case.
- [Voohoo Live](#): Redesigned the mobile app and website to improve the overall user experience across platforms.
- [Fundoo-Learning](#): Designed a quiz-based learning app using interactive educational content to engage learners.

Additional projects: [Naxxum](#) | [Trust Ruler](#) | [AppVin](#) | [Agni Tech](#)

SKILLS

Product & interaction design: User Experience (UX) Design, User Interface (UI) Design, product strategy, information architecture, wireframing, prototyping, visual design, design systems, responsive/mobile-first design, accessibility etc

AI & prototyping: Conversational UX, LLM interfaces, voice UI, chatbot UX, generative AI, prompt engineering, AI-assisted prototyping, no-code development, HTML and CSS.

Research & measurement: User interviews, usability testing, journey mapping, heuristic evaluation, A/B testing, behavioral analytics, funnel/cohort analysis and NPS.

Leadership & delivery: Cross-functional collaboration, stakeholder management, mentoring, design critiques, developer handoff, Agile/Scrum.

Tools: Figma, Framer, Claude, ChatGPT, Claude Code, Codex, Jira, Notion, Photoshop, Illustrator & many more...

EDUCATION

Post Graduate Diploma in Computer Programming

Aligarh Muslim University

2021 - 2022

Bachelor of Computer Applications (BCA)

VIPS, Guru Gobind Singh Indraprastha University (GGSIPU)

2014 - 2017

Graphic Web Design Course

Arena Multimedia

2017 - 2019

CERTIFICATIONS & AWARDS

Google UX Design Professional Certificate | Google & Coursera | 2021 - 2022

UX Design Certification | Interaction Design Foundation | 2017 - 2019

The Picasso of Design Award | Appventurez | 2020 and 2021
